 Broadway THEATRE.

 ITERALLY ORAMMED NIGHTLY.

 FLORENCE excels all other actors of the present age, with a face capable of every expression and an eye which is a grand interpreter of the author's meaning, his performance of Obenreizer is free from gesticulation and all frickery. In solidouty he recognizes no audience, and his hearers seem to detect his thoughts by some other process than listening to his words. Mr. Florence's acting in

 is scholarly and artistic, and has done more to create a taste for the legitimate drama than any actor of the present time. His Obenreizer is inteed a willain, or has no objection to be thought so, as many of his hearers, both male and female, are heard nightly to express their desire to drag the hearties wretch from the stage and are carried so far by their feelings as to call forth the displeasure of the less domonstrative portion of the suddence.

 A greater compliment was never paid to an actor since the origin of the stage on this continent.
